

### 1 Context

The electric bike use in Europe has been strongly growing for a few years as it is a consistent solution to many issues : Eco-mobility in urban areas, a leisure with an ease of reach for all for a new form of tourism, and an efficient tool for rehabilitation in health issues.

[eBikeMaps.com](http://eBikeMaps.com) is the worldwide first community website dedicated to electric bike users, providing them specific tools and services as well as a place to share their experience and enjoyment. eBikeMaps aims at easing the development of electric bike by making electric bike easier for all.

With more than 10000 members acquired in one year in France, proving the relevance of our concept, eBikeMaps has now started to develop a community in Germany. eBikeMaps aims in being a major European web player in the electric bike world in the next few years.

### 2 Job description

eBikeMaps provides specific tools and services to electric bike users and futur users. In the context of it's growth and expansion you will be in charge of the development of digital partnerships with the different players of the bike industry.

You will work in collaboration with both technical and communication teams.

### 3 Responsibilities
